

First Day of School

Welcome your new group of students with confidence and a smile!

Avery Removable Round Color-Coding Labels

The first day of school means plenty of new faces and names to learn. While you are putting these names and faces to memory, use **Avery Removable Round Color-Coding Labels** to assist you with some first-day tasks. For example, if you teach young students, use the dots to identify end-of-the-day transportation: yellow for bus riders, blue for car riders, and green for walkers. Reserve red dots for special circumstances. For older students, attach a dot to each nametag or desktag and refer to the color when forming groups, making classroom transitions, and lining up. Now that's a colorful solution to first-day concerns!

Clasp Envelopes, 10 x 13

There are always surprises on the first day of school. Here's one surprise you can be ready for! As you prepare desk nametags, first-day paperwork, and homework folders, make a few extra sets and store each set in a **Clasp Envelope, 10" x 13"**. If you don't use the welcome supplies on the first day of school, keep them on hand to welcome new students throughout the school year.

Index Cards

You'll want to have a few get-acquainted activities for the first day of school. This activity is easy to prepare and can be used at a moment's notice. Label individual **Index Cards** with different get-acquainted topics, such as a favorite food and a favorite outdoor activity. Keep the cards handy. When you need a quick activity, lead the class in chanting "Hip hip hooray! Give a cheer! We're ready to begin a new school year. We need a topic to discuss so we can share some things about us!" Then read a question card and give each child a chance to share his or her answer. New friendships will form right away.
