2. Hazards Identification

**Emergency overview**

DANGER FLAMMABLE GAS. MAY CAUSE FLASH FIRE. Contents under pressure. Containers may explode when heated.

**Potential short term health effects**

- **Routes of exposure** Eye, Skin contact, Inhalation.
- **Eyes** Contact with liquid may cause frostbite.
- **Skin** Contact with liquid may cause frostbite.
- **Inhalation** Excessive intentional inhalation may cause respiratory tract irritation and central nervous system effects (headache, dizziness). Vapors may cause dizziness or suffocation.
- **Ingestion** Not a normal route of exposure.
- **Target organs** Eyes. Skin. Respiratory system.
- **Chronic effects** Prolonged or repeated exposure can cause drying, defatting and dermatitis.
- **Signs and symptoms** Symptoms may include redness, edema, drying, defatting and cracking of the skin.
- **OSHA Regulatory Status** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
- **Potential environmental effects** Not available

3. Composition / Information on Ingredients

</tr>
</tbody>
</table>

4. First Aid Measures

**First aid procedures**

- **Eye contact** Immediately flush with cool water. Remove contact lenses, if applicable, and continue flushing for 15 minutes. Obtain medical attention immediately.
- **Skin contact** Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists.
- **Inhalation** If symptoms develop, move victim to fresh air. If symptoms persist, obtain medical attention. If breathing has stopped, trained personnel should administer CPR immediately.
- **Ingestion** Do not induce vomiting. Never give anything by mouth if victim is unconscious, or is convulsing. Obtain medical attention.
- **General advice** Do not puncture or incinerate container. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.
5. Fire Fighting Measures

Flammable properties
Flammable by WHMIS/OSHA criteria. Containers may explode when heated.

Extinguishing media
Suitable extinguishing media
Do not extinguish burning gas if flow cannot be shut off immediately. Use water spray or fog nozzle to keep cylinder cool.

Small Fires: Dry chemical. Carbon dioxide.

Unsuitable extinguishing media
Not available

Protection of firefighters
Specific hazards arising from the chemical
Contents under pressure. Pressurized container may explode when exposed to heat or flame. Vapors are heavier than air and may travel along the ground to some distant source of ignition and flash back. Cool containers with flooding quantities of water until well after fire is out.

Protective equipment for firefighters
Firefighters should wear full protective clothing including self contained breathing apparatus.

Hazardous combustion products
May include and are not limited to: Oxides of carbon. Fluoride gases.

Explosion data
Sensitivity to mechanical impact
Not available

Sensitivity to static discharge
Not available

6. Accidental Release Measures

Personal precautions
Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.

Environmental precautions
Prevent further leakage or spillage if safe to do so.

Methods for containment
Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up
Before attempting clean up, refer to hazard data given above. Remove sources of ignition. Although the chance of a significant spill or leak is unlikely in aerosol containers, in the event of such an occurrence, absorb spilled material with a non-flammable absorbent such as sand or vermiculite.

7. Handling and Storage

Handling
Use good industrial hygiene practices in handling this material. Avoid contact with eyes and skin. Avoid breathing mists or aerosols of this product. Use only with adequate ventilation.

Storage
Keep away from heat, open flames or other sources of ignition. Do not store at temperatures above 49 °C (120.2°F). Keep out of reach of children.

8. Exposure Controls / Personal Protection

Exposure limits

<table>
<thead>
<tr>
<th>Ingredient(s)</th>
<th>Exposure Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,1-Difluoroethane</td>
<td>ACGIH-TLV</td>
</tr>
<tr>
<td></td>
<td>Not established</td>
</tr>
<tr>
<td></td>
<td>OSHA-PEL</td>
</tr>
<tr>
<td></td>
<td>Not established</td>
</tr>
</tbody>
</table>

Engineering controls
Use only under good ventilation conditions or with respiratory protection.

Personal protective equipment

Eye / face protection
Wear safety glasses with side shields.
If there is constant skin contact, rubber gloves are recommended. As required by employer code. Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. Wash hands and face before breaks and immediately after handling the product.

10. Stability and Reactivity

- Reactivity: None known.
- Possibility of hazardous reactions: Hazardous polymerization does not occur.
- Chemical stability: Stable under recommended storage conditions.
- Conditions to avoid: Aerosol containers are unstable at temperatures above 49°C (120.2°F).
- Incompatible materials: Alkaline materials. Alkaline earth metals.
- Hazardous decomposition products: May include and are not limited to: Oxides of carbon. Fluoride gases.

### 14. Transport Information

**U.S. Department of Transportation (DOT)**

- **Basic shipping requirements:**
  - Proper shipping name: 1,1-Difluoroethane
  - Hazard class: 2.1
  - UN number: 1030

**Additional information:**

**Packaging exceptions**

*NOTE: Falcon Safety Products has been granted a DOT exemption that allows this product to be shipped similar to a Consumer Commodity (ORM-D). A copy of the DOT exemption can be obtained by calling Falcon Safety Products, Inc at 908-707-4900.*
Transportation of Dangerous Goods (TDG - Canada)

Basic shipping requirements:
- Proper shipping name: 1,1-Difluoroethane
- Hazard class: 2.1
- UN number: 1030

Additional information:
- Packaging exceptions: Limited quantity (containers up to 125mL)

IATA/ICAO (Air)

Basic shipping requirements:
- Proper shipping name: 1,1-Difluoroethane
- Hazard class: 2.1
- UN number: 1030

Additional information:
- Maximum net quantity packaging: Cargo aircraft only – 150 kg maximum (Forbidden on passenger aircraft)
- Maximum net quantity packaging cargo only: 150 kg

IMDG (Marine Transport)

Basic shipping requirements:
- Proper shipping name: 1,1-DIFLUOROETHANE
- Hazard class: 2.1
- UN number: 1030

15. Regulatory Information

Canadian federal regulations
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

WHMIS status
Controlled

WHMIS classification
Class A - Compressed Gas, Class B - Division 1 - Flammable Gas

WHMIS labeling

Occupational Safety and Health Administration (OSHA)
- 29 CFR 1910.1200 hazardous chemical: Yes
US Federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

CERCLA (Superfund) reportable quantity

None

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories

Immediate Hazard - Yes
Delayed Hazard - No
Fire Hazard - Yes
Pressure Hazard - Yes
Reactivity Hazard - No

2. Hazards Identification

**Emergency overview**
Contact may cause eye and skin irritation.

**Potential short term health effects**
- **Routes of exposure**: Eye, Skin contact, Inhalation, Ingestion.
- **Eyes**: May cause irritation.
- **Skin**: May cause irritation.
- **Inhalation**: May cause respiratory tract irritation.
- **Ingestion**: May cause stomach distress, nausea or vomiting.

**Target organs**: Eyes. Skin.

**Chronic effects**: Prolonged or repeated exposure can cause drying, defatting and dermatitis.

**Signs and symptoms**: Symptoms may include redness, edema, drying, defatting and cracking of the skin. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.

**OSHA Regulatory Status**: This product is NOT known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**Potential environmental effects**: This product has not been tested.

3. Composition / Information on Ingredients

**Composition comments**: Non-hazardous by WHMIS/OSHA criteria

4. First Aid Measures

**First aid procedures**

- **Eye contact**: Flush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.
- **Skin contact**: Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists.
- **Inhalation**: If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.
- **Ingestion**: Do not induce vomiting. Never give anything by mouth if victim is unconscious, or is convulsing. Obtain medical attention.
- **General advice**: If you feel unwell, seek medical advice (show the label where possible). Keep out of reach of children.

5. Fire Fighting Measures

**Flammable properties**: Not flammable by WHMIS/OSHA criteria.

**Extinguishing media**: Not applicable.

**Suitable extinguishing media**: Treat for surrounding material.
Unsuitable extinguishing media
Not available

Protection of firefighters
Specific hazards arising from the chemical
Not available

Protective equipment for firefighters
Firefighters should wear full protective clothing including self contained breathing apparatus.

Hazardous combustion products
None known.

Explosion data

Sensitivity to mechanical impact
Not available

Sensitivity to static discharge
Not available

6. Accidental Release Measures

Personal precautions
Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.

Environmental precautions
Do not contaminate water.

Methods for containment
Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up
Before attempting clean up, refer to hazard data given above. Small spills may be absorbed with non-reactive absorbent and placed in suitable, covered, labelled containers. Prevent large spills from entering sewers or waterways. Contact emergency services and supplier for advice. Never return spills in original containers for re-use.

7. Handling and Storage

Handling
Use good industrial hygiene practices in handling this material.

Storage
Keep out of reach of children. Store in a closed container away from incompatible materials.

8. Exposure Controls / Personal Protection

Engineering controls
General ventilation normally adequate.

Personal protective equipment
Eye / face protection
Wear safety glasses with side shields.

Hand protection
Rubber gloves. Confirm with a reputable supplier first.

Skin and body protection
As required by employer code.

Respiratory protection
Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.

General hygiene considerations
Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. Wash hands before breaks and immediately after handling the product.
